Results-driven Software Developer with hands-on experience in designing and developing scalable web applications and backend systems. Proficient in Laravel, PHP, and modern JavaScript technologies including React.js and Node.js. Strong expertise in RESTful API design, database management, and building secure, high-performance solutions. Committed to writing clean, maintainable code and continuously improving technical skills to deliver impactful software products.

EXPERIENCE

Software Developer

Mar 2025 – Present

Beetech Solution Pvt. Ltd.

Chabahil, Kathmandu

- Developed and maintained web applications and backend APIs using Laravel, PHP, and modern JavaScript technologies, focusing on performance, security, and scalability.
- Designed and integrated RESTful APIs and third-party payment/booking services for production platforms.
- Collaborated with cross-functional teams in an Agile environment using Git and project management tools to deliver features on schedule.
- Contributed to full-lifecycle development of client projects including travel booking, education, utility payment, and HR/attendance systems.

Software Developer

Jun 2023 – Feb 2025

Shangrila Informatics

Rudramati Marga, Kathmandu

- Developed and maintained web applications using Laravel, ensuring high performance and responsiveness across platforms.
- Collaborated with the backend team to integrate RESTful APIs for seamless frontend-backend data exchange.
- Worked with cross-functional teams to identify and prioritize features and requirements.
- Conducted code reviews, provided feedback, and developed unit & system tests to maintain software quality.

Internship

Mar 2023 – May 2023

Shangrila Informatics

Rudramati Marga, Kathmandu

- Developed and tested web applications using PHP and Laravel.
- Participated in code reviews and debugging processes, ensuring code quality and project standards.
- Used Git for version control and collaborated via Jira in an Agile environment.

PROJECTS

PingNepal – Online Bill Payment & Mobile Recharge Platform

<https://www.pingnepal.com/>

- Developed a comprehensive online platform enabling users worldwide to recharge NTC/Ncell mobile numbers and pay utility bills (electricity, landline, internet, TV, insurance, water) instantly and securely in Nepal.
- Implemented seamless service integrations and a clean, user-friendly interface supporting multiple payment categories with real-time processing.

Woori Hakkyo Education App (EPS-TOPIK / UBT Preparation) – Backend API

Play Store Link

- Developed the backend API and services for the Woori Hakkyo Education Android application used for Korean language learning and EPS-TOPIK exam preparation.

- Built APIs supporting structured learning modules (vocabulary, grammar, reading, listening), full-length mock exams (UBT & CBT), section-wise skill tests, offline downloadable exams, and study reminders.
- Implemented support for both free and paid versions with in-app purchase of additional tests. The application achieved 10,000+ downloads with strong premium conversion.

Yatra Nepal – Travel Booking Platform

<https://yatraanepal.com.np/>

- Developed a modern travel booking platform allowing users to book hotels, domestic/international flights, bus tickets, vehicle rentals, and curated travel packages across Nepal.
- Implemented advanced search & filters, secure payment integration, and an intuitive interface catering to solo travelers, families, and groups.

Bee Suite – HR & Attendance Management System

<https://beetech.beesuiteerp.com/>

- Contributed to the development of a comprehensive Attendance Management System supporting biometric devices, QR codes, and manual input with real-time updates.
- Implemented customizable attendance policies, shift/overtime/leave rules, detailed reporting, automated alerts, and seamless integration capabilities with payroll and HR tools.

Membership Management System – Rastriya Prajatantra Party

<https://rpp.org.np/>

- Developed a membership system supporting General (free) and Active (paid) memberships with online application, Khalti payment integration, and admin verification panel for generating membership ID cards.
- Implemented secure authentication, authorization, and password reset via email.

Nepal Designers & Builders (NDNB) Website & Client Portal (Freelance)

<https://ndnb.com.np/>

- Developed the official website and supporting digital presence for a leading architecture, interior design, and construction firm in Kathmandu.
- Enabled clients to explore services (design, estimation, turnkey construction) and stay updated on project progress through a clean, professional interface.
